About Disco

Disco Automotive Hardware is a family owned business with hometown values. Since 1986, Disco is a master distributor of automotive fasteners for the automotive aftermarket. We saw the need to manufacture as well as distribute a large selection of OEM and specialty fasteners. Disco has emerged as one of the leaders in our industry with a complete line of automotive products, while maintaining a focus on honesty, integrity and service

Our company goal:
Complete Customer Satisfaction with our Products and Service.

We service our customer's needs through our worldwide network of authorized Disco distributors and market through traditional channels of distribution. We sell only to authorized distributors, because you are our customer, not our competition. We offer three types of packaging: small "unit package" quantities, a one price "retail program" and in large "bulk quantities". In addition, we offer a variety of assortments and merchandising aids.

The Disco catalog is a complete reference for the automotive hardware industry. Our latest edition features OEM cross reference guides, actual size color photos and illustrations as well as complete specifications and dimensions

Disco's management has over 250 years combined experience in selling and working with automotive hardware. We are committed to working closely with your sales staff to aide them in selling more products.

From our President

We are very excited about this new catalog. Since our last catalog, we have more than tripled our product line. Please take a minute to go through this new catalog, you will be surprised at the new items that we now carry.

We are fast becoming a complete supplier to the fastener industry.

Check out our web site www.discoautomotive.com for even more information.

We appreciate your business.

Insert

Insert as you would any ordinary cotter pin. Hammer Lock pins have specially tapered parallel shanks for quick insertion.

Hit with Hammer

When hammer hits head of Hammer Lock pin, it forces the shorter shank down over the curved end of the longer shank, thus causing the lower ends of the shanks to spread apart. This simple operation locks the pin securely in place. No twisting or spreading of the shanks is necessary. It is all done automatically!

Twist to remove

To remove, insert any small tool in eye of Hammer Lock pin. Twist shorter shank to original position and remove.

Rivets

Rivets Self Piercing (SPR)

For Aluminum and Steel bonding applications.

Used on Audi, BMW, Ford, Jaguar, Land Rover and Mercedes Benz.

Note: It is recommended to check with your OEM or OE vendor to verify requirements for each application. Each manufacturer has different requirements for sizes, locations, and number of rivets required. Do not install replacement SPR in original SPR holes.

Blind Rivets may be installed in original SPR holes. Holes must first be reamed to OEM specifications.

Part #	Size	Material	Type	Qty.	
18121PK	3.35 x 3.50mm	Silver Steel H4 ALMAC	Self Piercing Rivets (SPR)	200 Pcs.	NEW
